

# pogoplug<sup>PRO</sup>

## FILE SHARING SOLUTION

**Pogoplug is a device that lets you connect any external hard drive and then access and share content through the Internet.**

It's time to start leaving your external hard drives at home. In just 60 seconds, Pogoplug connects your external hard drives to the Internet so you have full access to your home content wherever you go. Make your videos, photos, presentation files, or even your entire music library accessible online, without uploading. Pogoplug gives you the power to broadcast and share your digital life with ease from wherever life takes you.

**Get plugged in.**

## FILE SHARING SOLUTION

FREE LIFETIME SERVICE  
NO FEES, NO LIMITS

### Easy Setup

- 60-second installation. Simply plug Pogoplug into your network router, attach an external hard drive, and activate online.
- No need to change your network configuration or firewall settings.
- Attach up to 4 external hard drives (or more with a USB hub) giving you almost unlimited storage growth.
- No monthly fees, ever.

### Access and Share Your Files From Anywhere

- Access and share all of the files on your Pogoplug-connected hard drives from any Web browser.
- Send loads of videos, photos and massive files instantly.
- Upload and share files and folders directly from iPhone®, Android™, Blackberry®, Palm® and other mobile devices while on the road.
- Use Pogoplug like a hard drive attached to your computer, from anywhere on the Internet.

### Pogoplug File Sharing Frees You From:

- Complicated FTP installation and management
- Expensive sending and sharing services
- Limited PC remote access software tools

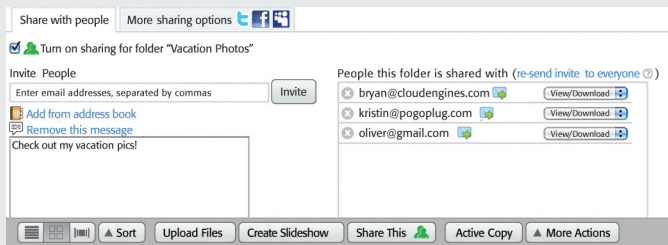

## Simple Web Browser

Each Pogoplug comes with a free online service for remotely accessing and sharing your files through any Web browser, desktop or mobile device. Share, stream, upload or download to and from your Pogoplug connected hard drives from anywhere in the world - no technical expertise or advanced networking knowledge required.

## Built-in Wifi

Allows your Pogoplug to connect to the wireless network in your home or office. Setup Pogoplug anywhere without the need for network cables.

## Unlimited and Private File Sharing

Share unlimited files and folders securely with friends, family, coworkers, and clients. Share large files like photos and videos with just a click: no uploading required.

## Free Mobile Application

Pogoplug offers free mobile applications on the iPhone®, iPad™, Android™, Blackberry® and other mobile devices. Upload and share files and folders or stream music and movies on your mobile device while on the road.

## Free Desktop Application

With the Pogoplug drive application software you are able to make all drives attached to your Pogoplug enabled device appear like local drives on your computer. Drag and drop files from your desktop to your Pogoplug or Pogoplug to your desktop.

## Cloud/Mobile Printing

The easiest way to print files and photos from your mobile device. Put your printers on the Internet. Print files and photos to your Pogoplug connected printers from any mobile device, from anywhere.
