

VIDEO 2 GO

DIGITAL VIDEO CONVERTER

RECORD ANY VIDEO SOURCE TO YOUR MAC OR PC

VIDEO 2 GO is a video conversion system for Mac or PC that captures, converts, and delivers quality recordings from virtually any video and audio source. The result is high-quality digital videos on your computer. You can watch your videos on your computer, record them onto a DVD*, or load them onto your portable video player, such as PSP or iPod. There is even one button upload to Facebook and Youtube.

For even those with almost no computer experience, VIDEO 2 GO is easy to connect to VCRs, DVRs, camcorders, and most other video-playback sources. Simply plug in the three color-coded cables on one side and the standard USB jack to your computer, and you're set. VIDEO 2 PC even comes with software that makes things quick and easy!

Video 2 GO has the one-touch snapshot button which lets you take a still image of your video source with one touch of the button.

Includes Cyberlink PowerProducer for simple, easy and straightforward video recording.

Includes Cyberlink PowerDirector digital video editing program which lets you create professional-looking videos and photo slideshows, complete with music, voice-overs, special effects, transitions and much more. PowerDirector lets you save as a file** or upload directly to Youtube or Facebook from the software, making sharing your videos easy. Mac users can record their favorite videos using included Videoglide capture and

Videoglide exporter software, or using Quicktime or iMovie, which come with every Mac.

VIDEO 2 GO enhances your videos and enables you to take them anywhere you want.

* Requires DVD recorder, not included
